

## **Test Technician**

Zaber Technologies ([www.zaber.com](http://www.zaber.com)) is looking for a Test Technician.

This is a full-time position. The Test Technician will be responsible for daily outgoing testing of finished products, future upgrades to the testing apparatus, assembling orders in preparation for packing, coordinating lead times with sales, and assisting with packing as necessary to ensure that the correct, high quality products are shipped to the customer safely. The Test Technician will work primarily with the Production and Sales Teams, as well as with other staff. The ideal candidate will organize their work for optimal efficiency, be comfortable multitasking, and will learn to evaluate the current and projected needs of production in order to prioritize their work and self-manage.

## **Desired qualities**

- Cheerful attitude, good sense of humour, and willingness to learn
- Strong organizational and time management skills
- Excellent attention to detail
- Hard working; ability to self-manage and problem-solve
- Good manual dexterity and hands-on skills
- Experience with electronics
- Excellent verbal communication skills, including listening skills
- Strong sense of commitment and integrity
- Basic computer skills in a Windows environment
- Diploma in Mechatronics or equivalent an asset
- Experience in a manufacturing environment an asset
- Experience working with an enterprise resource planning (ERP) system an asset
- Experience using SOLIDWORKS an asset
- Experience using LabVIEW an asset

## **Responsibilities**

The following are the responsibilities of the position, including the approximate fraction of time we expect to be spent on each.

- Testing of various motion control products – 40%
- Picking customer orders – 20%
- Assisting in packaging products as necessary – 10%
- Coordinating daily lead times between sales and production – 10%
- Helping to identify improvements to test fixturing and equipment – 10%
- Editing and updating work instructions as necessary – 5%
- Compiling test results for product and test improvements – 5%

## **About us**

Zaber Technologies is an established and steadily growing employee-owned company that designs, manufactures, and sells precision motion control equipment for high-tech markets around the world.

We strive to create an open, friendly, and high-achieving work environment. Our staff are progressive, enthusiastic individuals whose hobbies and interests are reflected in the work we do. Some aspects of Zaber that our employees especially enjoy include the people, the sense of community, flexible hours, level of employee engagement, employee-organized group activities and opportunities to learn. Most of us cycle, bus, or carpool to work and put in extra effort to make sustainable choices. Last but not least, our office has several friendly dogs.

### **How to apply**
